Preview of the Regional Bicycle Map
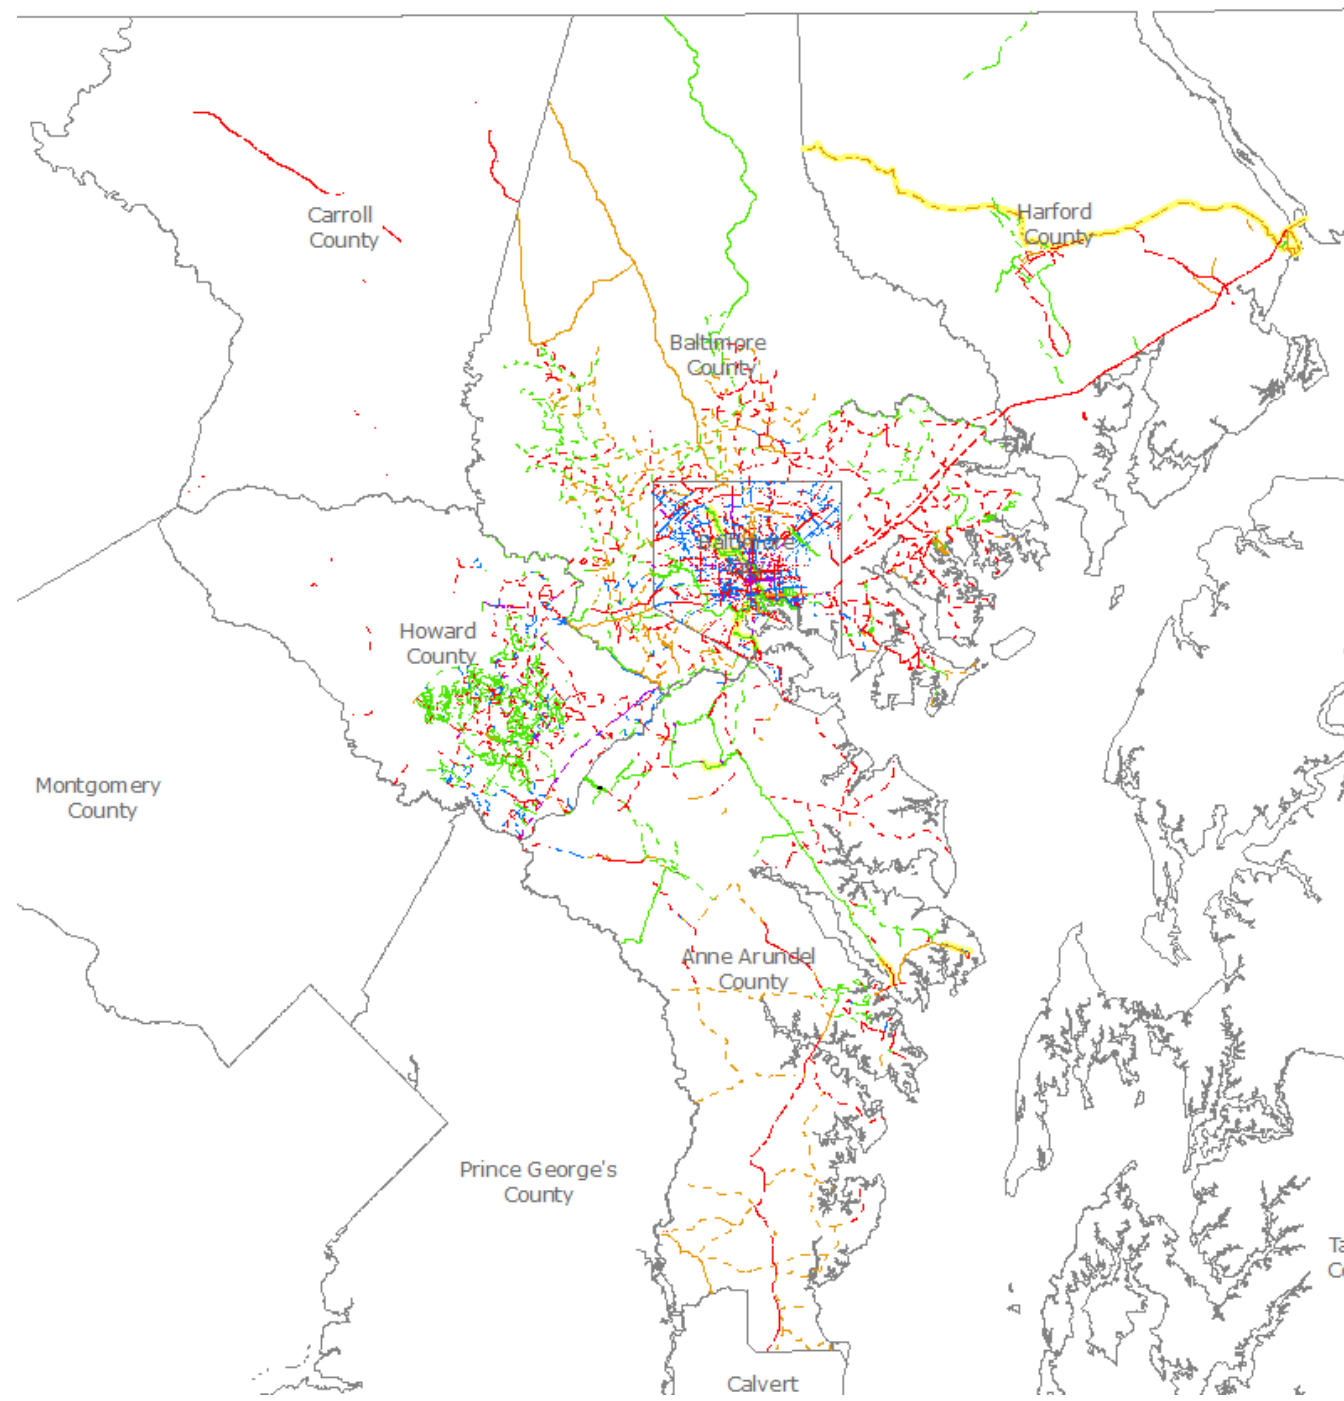

January 22, 2019

Project Origin

- Goal: A regional bicycle facilities map to aid in transportation planning
- Focus on commuting, especially network connectivity
- Requested by local government representatives
- FY 2016-2017 and FY 2018-2019 UPWP
- A collaboration between:
  - ❖ BMC Bicycle and Pedestrian Committee (BPAG)
  - ❖ BMC GIS and planning staff
  - ❖ Local jurisdiction GIS and planning staff

Data Access & Utility

Access:

- PDF maps
- Geodatabase
- Online data viewer
- Not currently public*

Utility:

- Cross-border connectivity
- Grant applications
- Statewide bicycle master plan
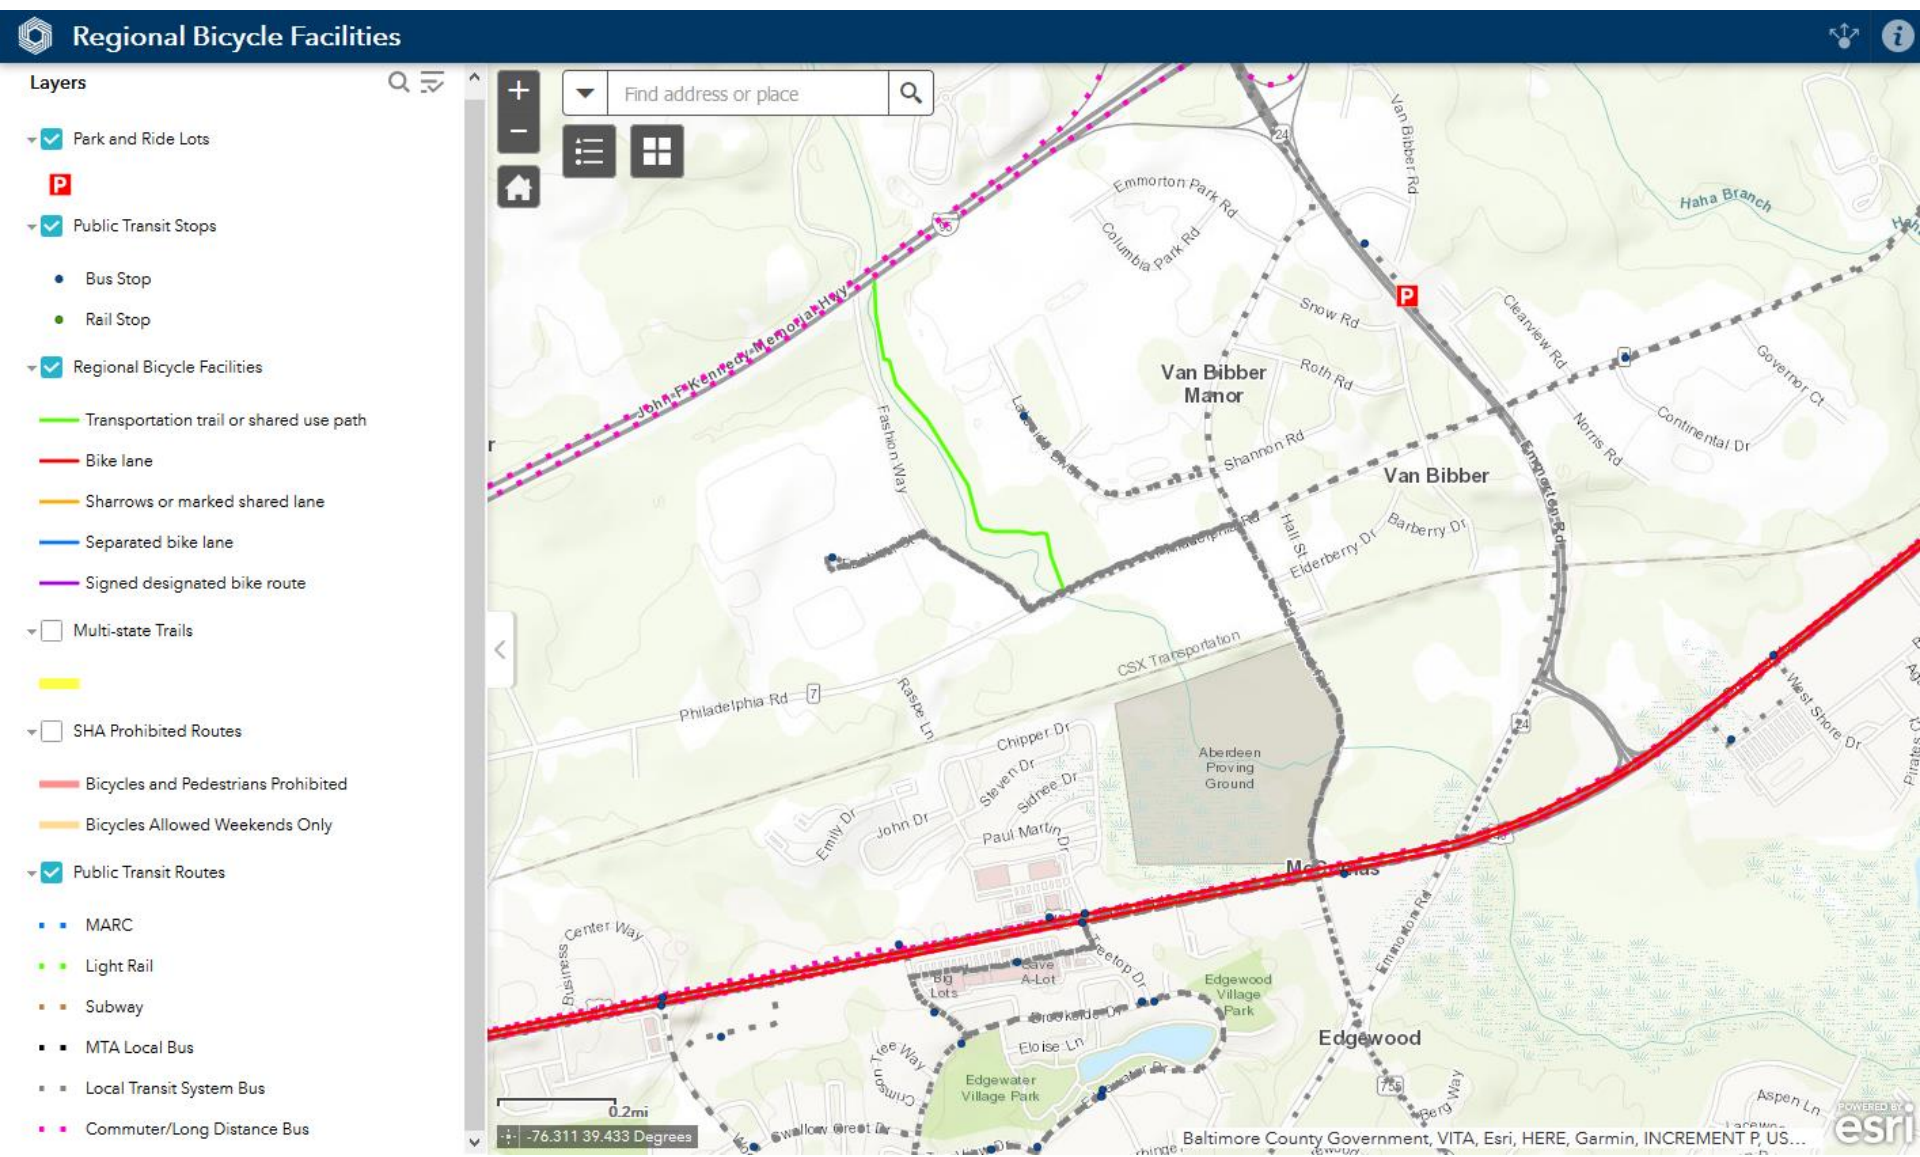

Public Bicycle Data

- November 2018: BPAG committee voted to make part of data set public

- Existing facilities only

- Planned, programmed, under construction remain internal products

- Facilitates collaboration with MDOT

- Allows jurisdictions to be authoritative source of their own data

About this Map

Baltimore Metropolitan Council

BMC Regional Bicycle Facilities

This map shows data from the regional bicycle facilities layer commissioned by BMC's BPAG committee, along with additional analysis layers. Planned, programmed, and under construction bicycle facilities are not included. The data was compiled by local jurisdictions using planning data, bicycle master plans, and capital improvement reports. The regional layer was consolidated at BMC. Information includes trail type, status, side of road, name (if applicable), and speed limit (if applicable). There are two status and facility fields for where a line segment has more than one facility or status type. All facility information is attributed to the street centerline with the exception of off-road trails. The Regional Bicycle Facilities data is intended for general planning purposes only. This data is in not intended for bicycle trip planning, and should not be construed as implying anything specific about a route's current conditions or state of repair.

Criteria

Attribute	Description
Source	Originating agency
Date received	Currency
Location	Optional location information
Contact	Person or agency responsible for data
Ownership	County, city, park, private, etc.
Website	Website with information on trails
Road name	Road name if facility is on a road (centerline)
Trail name	Trail name (usually for off-road trails)
Status	Planned, programmed, under construction, existing
Facility type	Bike lane, separated bike lane, signed bike route, sharrows or marked shared bike lane, trails/shared use paths
Facility side	One or both sides of the road
Multi-state trail network	East Coast Greenway, American Discovery Trail, Grand History Loop
Hours of operation	If a trail is open during certain times (ex. park)
Posted speed limit	Speed limit for on-road facilities as well as speed limit for trails/shared use paths if applicable
