

### **Implementing CMP Project Recommendations**

**Technical Committee Presentation** 

October 6, 2020

#### **Overview**

- 1. Creation of a CMP Committee
- 2. Revisions to LRTP and TIP Project Submission forms

# **1. Creation of a CMP Committee**

 Recommendation from the CMP consultant project: create a CMP Committee to:

 $\circ$  guide implementation of the project recommendations and

 $_{\odot}$  help track progress toward meeting the CMP objectives.

 The new CMP Committee will build upon the CMP Steering Committee convened to support the consultant project, and include staff from at least the following agencies:

0	Local planning/DPW/emergency management	0	MDOT TSO
0	MDOT SHA	0	MDOT MTA
	<ul> <li>OPPE</li> </ul>	0	MDOT MDTA
	CHART	0	MSP
	<ul> <li>Districts 4, 5, and 7</li> </ul>	0	MDP
		0	FHWA

 Proposed meeting schedule: meet three times per year at times selected to provide relevant regional input to the CTP process

#### BMC 8

#### **Proposed CMP Committee Meeting Schedule**

# **CMP Committee Next Steps**

- BMC staff discussed two options for a new CMP Committee:
  - 1. Technical Committee as the backbone of the CMP Committee and hold CMP Committee meetings immediately following Technical Committee meetings
    - Many Technical Committee members served on the CMP Steering Committee so could streamline the time needed to serve on another committee
    - TC agendas could be shortened for the three meetings that include the CMP Committee
  - 2. Create separate CMP Committee

BMC

- Addresses concern of reduced meeting time from combining two committees
- Aim to hold first meeting in October/November to kick off the committee

### 2. Revisions to LRTP and TIP Project Submission Forms

- CMP strategies
  - Provide greater emphasis on operational approaches
  - Recognize CMP encompasses more than just mobility concerns, including: reliability, accessibility, safety, and equity
  - Includes new strategies such as pricing strategies and micro-mobility strategies
  - CMP Strategy Guide will be posted on BMC web page
- CMP strategies will be used to update the LRTP and TIP project submission forms
  - Overall approach is grounded in consistency with federal requirements and regional goals while introducing new strategies that seek to carry out the mission of the CMP and to advance a more comprehensive means to help select transportation investments

# **Proposed CMP Checklist**

#### Appendix A: Sample CMP Checklist for the LRTP Project Submittal Form

 TIP and LRTP project
 submission forms will be updated to align with these strategies
