

BALTIMORE METROPOLITAN PLANNING ORGANIZATION

BALTIMORE REGIONAL TRANSPORTATION BOARD

RESOLUTION #17-21

**APPROVING THE REVISED FUNCTIONAL CLASSIFICATION OF THE
ROADWAY NETWORK OF THE BALTIMORE REGION**

WHEREAS, the Baltimore Regional Transportation Board is the designated Metropolitan Planning Organization for the Baltimore region, encompassing the Baltimore Urbanized Area, and includes official representatives of the cities of Annapolis and Baltimore, the counties of Anne Arundel, Baltimore, Carroll, Harford, Howard, and Queen Anne's as well as representatives of the Maryland Department of Transportation, the Maryland Department of the Environment, the Maryland Department of Planning, the Maryland Transit Administration, and Harford Transit; and

WHEREAS, the functional classification of roadways defines the role each element of the roadway network plays in serving various travel needs. Functional classification also carries with it expectations about roadway design, including the speed, capacity and relationship to existing and future land use development. Federal legislation continues to use functional classification in determining eligibility for funding under the Federal-aid program. Finally, as agencies continue to move towards a more performance-based management approach, functional classification will be an increasingly important consideration in setting expectations and measuring outcomes for preservation, mobility and safety; and

WHEREAS, the Intermodal Surface Transportation Efficiency Act of 1991, Section 1006(4)(c) and CFR, Federal Aid Highway Act of 1973, Title 23, Chapter 1, Part 470, Section 105, requires each state to perform a functional classification of its roadways in accordance with the guidelines and schedules established by the Secretary of the U. S. Department of Transportation; and

WHEREAS, the Maryland Department of Transportation has participated in cooperation with the local jurisdictions in the functional classification of the roadways in the Baltimore region; and

WHEREAS, the under the provisions of the Intermodal Surface Transportation Efficiency Act of 1991 and the Federal Transit Act Amendments of 1991, Metropolitan Planning Organizations have the responsibility for developing and carrying out a comprehensive, continuing and coordinated transportation planning process for the metropolitan area; and

NOW, THEREFORE, BE IT RESOLVED, that the Baltimore Regional Transportation Board approves the submission to the Federal Highway Administration the functional classification as revised for Anne Arundel, Harford and Howard counties as presented on the Federal Highway Functional Classification Maps prepared by the Maryland Department of Transportation.

I HEREBY CERTIFY that the Baltimore Regional Transportation Board, as the Metropolitan Planning Organization for the Baltimore region, approved the aforementioned resolution at its May 23, 2017 meeting.
